Terms and Conditions: Imprint: Apk Mirror 1.: Download APK Forge of Empires: Build a City Reviews Deleting App If you WANT to spend TWO DAYS creating products for someone else to steal them, this game is for you!!! Yamil Hated Very good game It's a very good game in my opinion, but I know other people will disagree. I'm only 9 years old, yes. Great game, a suggestion that recommends players sell buildings in advance for supplies and coins or place them in auction for coins and gems. Could be wrong, but Debs may miss an opportunity to promote the auction function a little more. 2019 App Problems Game Never Loaded It was over 48 hours and the app seems broken to me. I contacted support and they are not responding. I've been playing this game for over two years and have loved the experience and other players so far, I'm not upset that I can't play mobile and they haven't responded to my support tickets for help. I hope they fix it soon before the end of the winter event. Edit: from one to three stars, because this is still the first response from anyone to delete the app, switch to my phone and download the app again. I did this three times before I could get back into the game. Still, no response from the support team. Although.
